ABOUT ►.....

Merchant Research and Consulting Ltd. offers in-depth market research of chemical industry products on the global and regional markets.

▼ **Merchant Research & Consulting, Ltd** is a truly global specialist in investigating all aspects of the chemical sector and related industries.

Our company has many years of experience and outstanding reputation in researching chemical markets, companies and products worldwide, which helps us to annually attract hundreds of clients relying on our market intelligence.

Merchant Research and Consulting Ltd. offers in-depth market research services covering both global and regional chemical markets.

Our range of services has been built up through applying rigorous scientific methodology to market researches, combined with an on-the-spot-presence.

Our services fall into 2 broad classifications: publications (incl. market research reports, periodicals and other analytical products) and consultancy.

PRODUCTS ▶

More than 150 chemical products are covered by our Market Research Reports, which we regularly update.

▼ Market research publications

Each Report gives a comprehensive analysis of a specific chemical market.

Reports address multiple issues such as production, consumption, price trends, feedstock market behavior, international trade patterns, distribution pathways, forecasts, to name only a few.

Typical report contains 50-150 pages. It explores global, regional and countries markets for each product.

▼ The reports are broken into several parts following the logic of a research:

- ▶ a true insight into the national, regional and global markets for related products;
- ▶ comprehensive data showing capacities, production, consumption, trade statistics, prices and other business parameters;
- ▶ a wealth of information on producers and suppliers;
- ▶ analysis of current trends;
- ▶ market forecasts.

Our reports focus on the following products:

Alcohols, Acids & Esters

- ▶ 2-Ethylhexanol
- ▶ Acetic acid
- ▶ Acrylic acid
- ▶ Acrylonitrile
- ▶ Adipic acid
- ▶ Aniline
- ▶ Ethanol
- ▶ Ethyl acetate
- ▶ Ethylene dichloride
- ▶ Ethylene oxide
- ▶ Hydrogen cyanide
- ▶ Isopropanol
- ▶ Methanol
- ▶ Monoethylene glycol
- ▶ Propylene glycol
- ▶ Propylene oxide
- ▶ Sulfuric Acid
- ▶ Terephthalic acid

Petrochemicals

- ▶ Acetone
- ▶ Benzene
- ▶ Biodiesel
- ▶ Bisphenol A
- ▶ Butadiene
- ▶ Butanediol
- ▶ Caprolactam
- ▶ Cumene
- ▶ Cyclohexane
- ▶ Dimethyl terephthalate
- ▶ Dioctyl phthalate
- ▶ Epichlorohydrin
- ▶ Ethylbenzene
- ▶ Ethylene
- ▶ Formaldehyde
- ▶ Maleic anhydride
- ▶ Melamine
- ▶ Methyl ethyl ketone
- ▶ Methyl methacrylate
- ▶ Methyl tertiary butyl ether
- ▶ Methylene di-p-phenylene isocyanate
- ▶ Orthoxylene
- ▶ Paraxylene
- ▶ Perchloroethylene
- ▶ Phenol
- ▶ Phthalic anhydride
- ▶ Styrene
- ▶ Toluene
- ▶ Toluene diisocyanate

Inorganics

- ▶ Ammonia
- ▶ Ammonium nitrate
- ▶ Ammonium sulphate
- ▶ Carbon black
- ▶ Caustic soda
- ▶ Chlorine
- ▶ Hydrogen peroxide
- ▶ Potassium hydroxide
- ▶ Soda ash
- ▶ Sodium chlorate
- ▶ Sodium sulphate
- ▶ Titanium dioxide
- ▶ Urea

Polymers

- ▶ Acrylonitrile-butadiene-styrene copolymer
- ▶ Expandable polystyrene
- ▶ Nitrile rubber
- ▶ Nitrobenzene
- ▶ Polycarbonate
- ▶ Polyethylene high density
- ▶ Polyethylene linear low density
- ▶ Polyethylene low density
- ▶ Polyethylene terephthalate
- ▶ Polypropylene
- ▶ Polystyrene
- ▶ Polyvinyl chloride
- ▶ Propylene
- ▶ Styrene-butadiene rubber
- ▶ Vinyl acetate
- ▶ Vinyl chloride

Metals

- ▶ Aluminium
- ▶ Antimony
- ▶ Arsenic
- ▶ Beryllium
- ▶ Bismuth
- ▶ Cadmium
- ▶ Chromium
- ▶ Cobalt
- ▶ Copper
- ▶ Gold
- ▶ Iron and Steel
- ▶ Lead
- ▶ Lithium
- ▶ Magnesium
- ▶ Mercury
- ▶ Molybdenum
- ▶ Nickel
- ▶ Platinum-Group Metals
- ▶ Selenium
- ▶ Silver
- ▶ Tantalum and Niobium (Columbium)
- ▶ Tellurium
- ▶ Tin
- ▶ Titanium
- ▶ Tungsten
- ▶ Uranium
- ▶ Vanadium
- ▶ Zinc
- ▶ Zirconium and Hafnium

Minerals

- ▶ Asbestos
- ▶ Barite
- ▶ Bentonite
- ▶ Boron
- ▶ Bromine
- ▶ Diatomite
- ▶ Feldspar
- ▶ Fluorspar
- ▶ Graphite
- ▶ Gypsum
- ▶ Industrial Diamond
- ▶ Iodine
- ▶ Iron Ore
- ▶ Lime
- ▶ Manganese
- ▶ Mica
- ▶ Perlite and Vermiculite
- ▶ Phosphates
- ▶ Pumice and Pumicite
- ▶ Salt
- ▶ Sulfur
- ▶ Talc and Pyrophyllite

*For all our reports we offer a Monthly Update Service covering prices, market news and company activities.

PERIODICALS ▶

▼ Merchant Research and Consulting Ltd. currently publishes the following periodicals:

1. Monthly Report Updates

- ▶ monthly news bulletins covering the global market for a specific product (incl. company news, projects, M&A activities, prices and their trends);
- ▶ updated each month;
- ▶ available on annual subscription.

2. Quarterly Regional Reports

- ▶ focus on recent developments of a reviewed industry in a particular region;
- ▶ address product categories: Alcohols, Acids and Esters, Petrochemicals, Inorganic chemicals, Polymers and Resins, Metals;
- ▶ cover regions: North America, Latin America, Asia, MENA, EU, EE (incl. FSU);
- ▶ available on annual subscription.

NOTE: We can provide fully customized Periodical Reports covering all sorts of topics and issues.

CONSULTING ▶

Merchant Research and Consulting Ltd. offers reliable and effective consultancy services to assist our clients in the development of their current business scenarios and strategic plans.

▼ Our consultancy services fall into three broad categories:

- ▶ Market assessment
- ▶ Feasibility studies and preparation of investment projects
- ▶ Industry analysis

▼ Market assessment

- ▶ business environment (key market figures, incl. market size, price tendencies, producers, suppliers, consumers, technologies, patents, etc.);
- ▶ market behavior forecasts and demand forecasts;
- ▶ feedstock market analysis;
- ▶ product and market potential;
- ▶ regional market analysis;
- ▶ opportunities and threats (incl. choice of prospective markets and effective marketing strategies).

▼ Feasibility studies and preparation of investment projects

- ▶ development of business plans and investment projects in accordance with the criteria of the financial sector (banks, leasing, insurance, etc.);
- ▶ economic feasibility analysis;
- ▶ company viability assessment;
- ▶ express analysis and in-depth assessment of chemical enterprises seeking investments.

▼ Industry analysis

- ▶ constant monitoring of the main sectors of the chemical industry and related industries;
- ▶ unparalleled flexibility of the industry analysis (any product or groups of products).

This analysis features:

- ▶ market condition and estimates, market forecast;
- ▶ chemical product ranges, trademarks, analogous products, application areas;
- ▶ regional and global producers, consumers and traders (including contact details).

For each chemical product in any country or region we analyze the following elements:

- ▶ production and its capacities;
- ▶ consumption structure and volume;
- ▶ market price trends;
- ▶ exports and imports;
- ▶ existing technologies;
- ▶ feedstock market condition.

CLIENTS ▶

Our customers include companies in the chemical, petrochemical, pharmaceutical and other related industries.

A third of the companies on the Fortune 500 list regularly use our services.

Many of our existing clients have been with us for many years thanks to the top quality of our marketing research products.

Among our clients there are:

Johnson & Johnson

Kimberly-Clark

L'ORÉAL

Panasonic

NIPPON STEEL

SONY

SHARP

TOSHIBA

SIEMENS
