This 2013 year market report aims to provide a proper picture of world, regional and countries' markets of Copper.

Starting from description of global market, it moves further to the analysis of regional markets peculiarities and countries specifics and completes by giving a forecast for the markets under consideration.

The research is based on reliable data. While preparing the study the following information sources are used:

1. Company databases
2. Printed and electronic specialized publications
3. Internet recourses
4. Media analytical articles

The report starts from the analysis of global market of Copper.

The part **1. WORLD COPPER MARKET** comprises three parts.

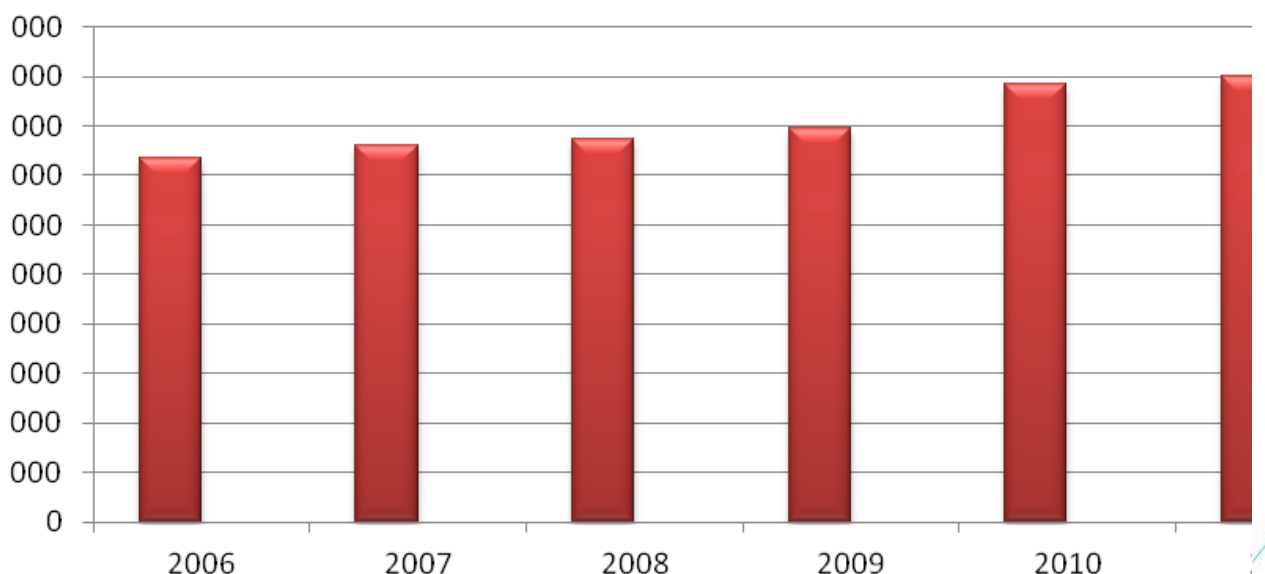

**1.1. Copper in Global Industry** provides profound description of the product. It names its application spheres, informs about identified resources.

**1.2. Copper Market Overview** covers major market parameters.

**Table. World mine production of Copper, 2007-2012, thousand tonnes**
