This 2013 year market report aims to provide a proper picture of world, regional and countries' markets of Iodine.

Starting from description of global market, it moves further to the analysis of regional markets peculiarities and countries specifics and completes by giving a forecast for the markets under consideration.

The research is based on reliable data. While preparing the study the following information sources are used:

1. Company databases
2. Printed and electronic specialized publications
3. Internet recourses
4. Media analytical articles

The report starts from the analysis of global market of Iodine.

The part **1. WORLD IODINE MARKET** comprises three parts.

1.1. Iodine in Global Industry provides profound description of the product. It names its application spheres, informs about identified resources.

1.2. Iodine Market Overview covers major market parameters.
