**Merchant Research
& Consulting Ltd**

ABOUT ►

Merchant Research and Consulting, Ltd is the market research company engaged in analysis of all aspects of the chemical sector and related industries.

▼ Merchant Research & Consulting, Ltd

has many years of sound experience and outstanding reputation in researching chemical markets, companies and products worldwide. It helps us to attract hundreds of clients relying on our market intelligence. Our dedicated team, which unites PhD and Master Degree specialists in Chemistry, Marketing and IT with business professionals, performs permanent monitoring of the situation in the chemical industry market using our deep expertise and know-how in the market analysis, data mining tools and database operation.

Among services we provide are:

- Market reports preparation
- Customized research
- Market monitoring
- Consultancy

▼ Market reports

More than 150 chemical products are covered by our regularly updated Market Research Reports. Each study provides a comprehensive analysis of a particular chemical market. Reports address multiple issues like production, consumption, price trends, feedstock market behavior, international trade patterns, distribution pathways, forecasts etc.

▼ Customized research

Each market research report can be tailored to a client's needs. Custom-designed research can be conducted by request in case the product market is not in the list. Our qualified team of researchers and experts will do their best to cope with the task and provide you with the report of your interest.

Merchant Research & Consulting, Ltd. offers market reports on the following products:

◀ MARKET REPORTS

Alcohols, Acids and Derivatives	Other Petrochemicals	Polymers	Inorganic Chemicals	Metals	Minerals
2-Ethylhexanol (2-EH) Acetic Acid Acrylic Acid (AA) Acrylonitrile (ACN) Adipic Acid (AdA) Butanediol (BDO) Caprolactam (CPL) Ethanol Isopropanol (IPA) Maleic Anhydride (MA) Methanol Monoethylene Glycol (MEG) Phthalic Anhydride (PA) Propylene Glycol (PG) Terephthalic Acid (PTA)	Acetone Aniline Benzene Bisphenol-A (BPA) Butadiene (BD) Butyl Acetate Cumene Cyclohexane (CX) Dimethyl Terephthalate (DMT) Dioctyl Phthalate (DOP) Epichlorohydrin (ECH) Ethyl Acetate Ethyl Tert-Butyl Ether (ETBE) Ethylbenzene (EB) Ethylene Ethylene Dichloride (EDC) Ethylene Oxide (EO) Formaldehyde Melamine Methyl Ethyl Ketone (MEK) Methyl Methacrylate (MMA) Methyl Tert-Butyl Ether (MTBE) Methylene Di-P-Phenylene Isocyanate (MDI) Nitrobenzene (NB) O-Xylene (OX) Perchloroethylene (PCE) Phenol Propylene Propylene Oxide (PO) P-Xylene (PX) Styrene Toluene Toluene Diisocyanate (TDI) Vinyl Acetate (VAM) Vinyl Chloride (VCM) Urea	Acrylonitrile Butadiene Styrene (ABS) Expandable Polystyrene (EPS) Nitrile Rubber (NBR) Polybutadiene Rubber (BR) Polycarbonate (PC) Polyethylene (PE) Polyethylene High Density (HDPE) Polyethylene Linear Low Density (LLDPE) Polyethylene Low Density (LDPE) Polyethylene Terephthalate (PET) Polyisobutylene (PIB) Polypropylene (PP) Polystyrene (PS) Polyvinyl Alcohol (PVOH) Polyvinyl Chloride (PVC) Styrene-butadiene Rubber (SBR)	Ammonia Ammonium Nitrate Ammonium Sulfate Calcium Chloride Carbon Black (BC) Caustic Soda (Sodium Hydroxide) Chlorine Hydrogen Cyanide (HCN) Hydrogen Peroxide (HP) Potassium Hydroxide Soda Ash (Sodium Carbonate) Sodium Chlorate Sodium Cyanide Sodium Sulfate Sulfuric Acid Titanium Dioxide (TiO ₂)	Antimony Arsenic Beryllium Bismuth Cadmium Chromium Cobalt Copper Gold Iron and Steel Iron Ore Lead Lithium Magnesium Manganese Mercury Molybdenum Nickel Platinum-Group Metals Scandium Selenium Silicon Silver Tantalum and Niobium (Columbium) Tellurium Tin Titanium Tungsten Uranium Vanadium Zinc Zirconium and Hafnium	Barite Bauxite and Alumina Iodine Graphite Zeolites Asbestos Bentonite Boron Bromine Cement Diatomite Feldspar Fluorspar Gypsum Industrial Diamond Kaolin Lime Mica Perlite and Vermiculite Phosphates Potash Pumice and Pumicite Salt Sulfur Talc and Pyrophyllite Zeolites

Monthly Market Monitoring

- ▶ Summarizes key events occurred in product market worldwide;
- ▶ Covers product weekly prices by region and supplies with one-year historical background;
- ▶ Monitors activities of product market players;
- ▶ Available on annual subscription.

Monthly market monitoring covers various markets:

- ▶ Inorganic chemicals (alkali, elementary substances, inorganic acids, inorganic salts, metal oxides, non-metallic oxides);
- ▶ Alcohols and organic acids with derivatives (monohydric alcohols, polyalcohols, organic acids, anhydrides, nitriles, amides);
- ▶ Other petrochemicals (aldehydes & ketones, alkenes (olefins), amines, benzene & derivatives, ethers, esters, halogenated, isocyanates);
- ▶ Polymers (thermoplastic, elastomers);
- ▶ Metals (minor metals, nonferrous, precious metals, steel / iron);
- ▶ Minerals;
- ▶ Fertilizers.

CLIENTS ▶

Our customers include companies from chemical, petrochemical, pharmaceutical and other related industries.

Many of our existing clients have been with us for many years owing to the top quality of our market research products.
